**DTF (Direct-to-Film)** printing is a process where designs are printed onto a special film using a printer and then transferred onto fabric using heat and pressure.

Unlike other methods, DTF allows for vibrant, detailed designs to be applied to almost any type of fabric, including cotton, polyester, and blends, without needing pre-treatment.

It's known for its durability, versatility, and ability to produce high-quality prints with minimal effort.

"Spread Good helped us find a creative and new way to elevate our hip packs, allowing us to customize them by printing on them. We printed new logos and custom text on them and even print some new merch!"

Pesty Marketing

Spread Good Shop has been awesome to work with! They supplied swag for my company, Pesty Marketing, and I couldn't be happier with the experience. From the start, they were super communicative and helpful. I needed my first order turned around quickly for a conference, and they delivered on time without any issues.

For my second order, I went with higher-quality garments, and the swag turned out even better than expected. I've been getting compliments left and right—employees and clients keep asking if they can get their own sweaters and hats.

I'm already planning a much larger order with them for more sweaters, hats, and shirts. Spread Good Shop is officially my go-to partner for company swag. Highly recommend them!

LVL Events

A client of mine needed custom tote bags and t-shirts for a birthday party in a short amount of time. Spread Good Shop was able to help finalize a design, print, and get us everything to us in just a few days!

They were so awesome to work with! I recommend them to my clients whenever they ask about custom merch now!"

"Spread Good does amazing things for families! I can not even express how grateful we are that they helped to support our daughter in her Fight with Leukemia. With their help in promoting Shirts and sweaters they helped us raise money. This is important for so many families like ours that struggle through these difficult times and allows for us to have a little bit more piece of mind. A little bit goes a long way. The whole process was simple and they communicated with us the whole time. They truly do Spread Goodness to the families they support! Thank you for making Aria Feel special."

**GIVING  
BACK**

Here at The Spread Good Shop,  
we are passionate about giving back, which is why  
**we have a goal to raise and donate \$100,000**  
**in 2025 to various causes.**

The way we do that is by providing nonprofits and families in need  
a **no cost model** to create and sell their merchandise online.

We handle everything:

- ✓ design
- ✓ hosting
- ✓ production
- ✓ fulfillment

with **no penny or physical labor spent** on the beneficiaries end.

We just simply send them the profits from the  
merchandise sold after every campaign, so that they  
can continue focusing on what's most important.
